

ENVIRONMENTALLY FRIENDLY PACKAGING

Dri-Fresh® Resolve Absorbent Cushioning Fruit Pad

Dri-Fresh® Resolve provides an exceptional absorbent presentation surface for fruit. The pad cushions the fruit absorbing excess moisture or

juice, therefore decreasing pack and product waste. A fully compostable pad compliant with EN13432. Manufactured using Non-GM corn starch film thermally laminated to an FSC approved cellulosic base.

Dri-Fresh® Resolve manufactured in BRC/IoP accredited facilities, using a proprietary process without adhesives or bonding materials.

Available in a wide variety of sizes, colours and thicknesses, offering protection in transit to the shelf.

- ✓ Soft and spongy protection for fruit
- ✓ Reduces sweating, bruising and damage to the fruit.
- ✓ Attractive packaging enhances presentation & value.
- ✓ Absorbency and cushioning ranging from 800cc/m² – 5000cc/m²
- ✓ Any colour and size to suit
- ✓ Available in reels or as cut pads
- ✓ Fully compostable EN13432 compliant
- ✓ DIN CERTCO certification for home compost.
- ✓ Made in BRC/IoP Accredited facilities and RAPRA approved for direct food contact
