

# START COMPOSTING FOR A WASTE-FREE WORLD

## COMPOSTING IS A PROVEN SOLUTION FOR FOOD AND FOOD SERVICE PACKAGING WASTE

Used foodservice packaging can't be recycled unless it is completely clean. Composting offers an easy and accessible recycling solution that diverts all your food scraps and packaging from landfill – converting it to nutrient-rich compost.

### BIOPAK COMPOST SERVICE

660+ TONNES OF WASTE  
DIVERTED FROM LANDFILL

2,200+ SUBURBS  
14 MAJOR CITIES

# START COMPOSTING TODAY

Cut waste to landfill by switching to compostable packaging and joining the BioPak Compost Service. Reduce your environmental footprint for as little as \$11 a week.

- ✓ **Divert foodscraps from landfill**
- ✓ **Quit conventional plastic**
- ✓ **Reduce general waste bills**
- ✓ **Create compost in 8 weeks**
- ✓ **Replenish soil with compost**
- ✓ **Help fight climate change**
- ✓ **Reduce greenhouse gas emissions**

## STEP 1

### Switch to compostable packaging

BioPak's carbon neutral packaging solutions are designed for a circular economy where there is no waste. It starts with responsibly sourced materials, continues with environmentally certified manufacturing processes, and ends with nutrient-rich compost.

## STEP 2

### Join the Compost Club

Join the 200+ businesses in our Compost Club and support the compost revolution. Use our promotional materials to educate staff and customers about the benefits of circular economy. Petition to your local council to offer residential compost collections too.

## STEP 3

### Give back to the earth

BioPak packaging can all go in one bin with food scraps and organic waste – saving time and space. After collection, it's turned into soil within eight weeks. An average cafe can divert 7.8 tonnes of waste from landfill a year – that's the weight of 130 people.
