Print specifications

Design notes

Use our supplied artwork templates and place artwork along guidelines. The artwork should be checked by printing the artwork, cutting to the template shape and folding into shape

Care should be taken ensuring logos and design elements are proportionally the same across other sized products as required

Artwork can be printed in either CMYK or Uncoated Pantone colours – not a mixture of both. There is a four colour limit when printing in Uncoated Pantones. CMYK printing colours are unlimited.

Metallic and fluorescent colours cannot be used

All graphics must be vector and not as bitmap imagery

Line work must be 0.5 point or greater

Text must be 5 point or larger

Adobe Illustrator is our preferred software for box artwork

Convert all text to outlines and embed all graphics

Copyright

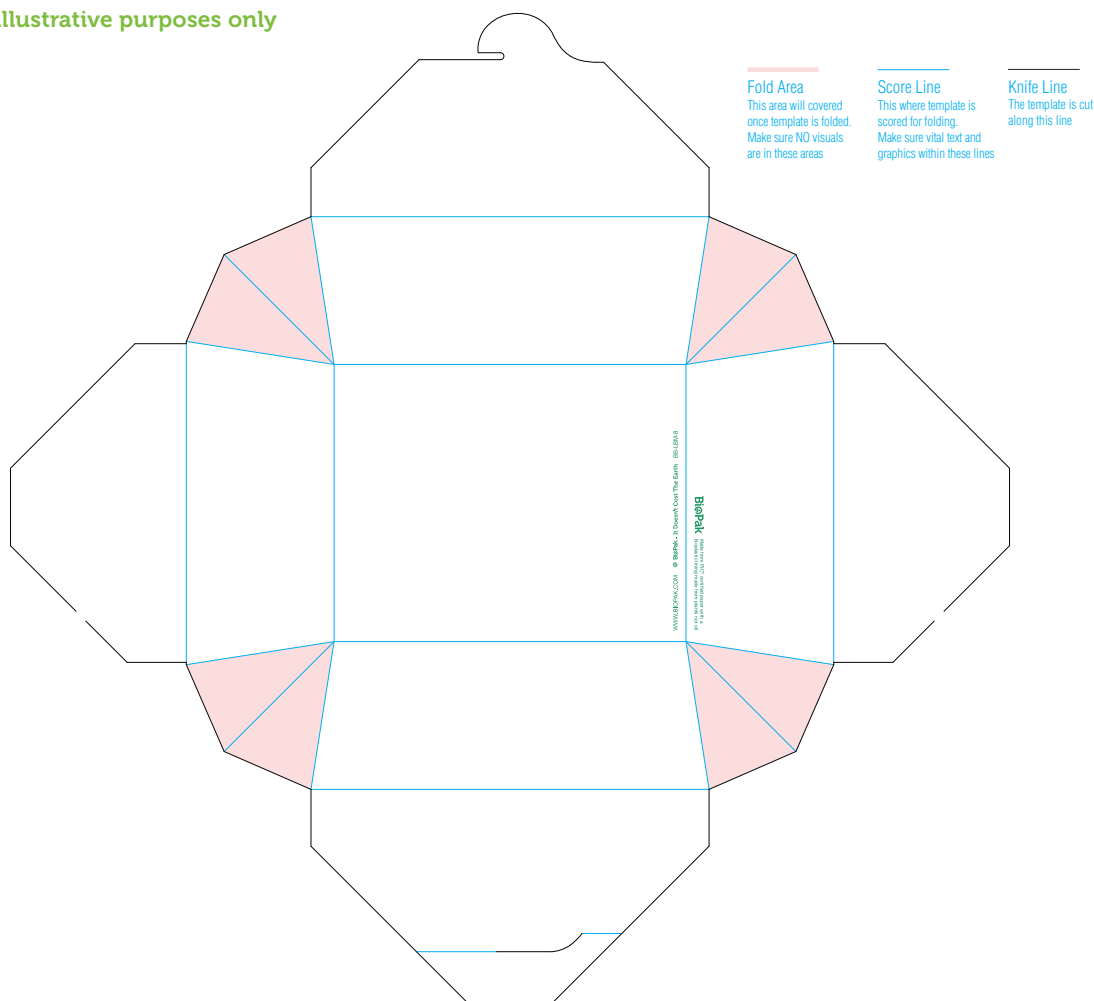

All images, graphics and fonts provided in artwork/or provided to BioPak to artwork, must comply with copyright and be the property of the client

Templates notes

Knife line is marked by the solid black line. Artwork that extends beyond this line will not be seen. Keep all key info 3mm within this area. To test, print templates to scale and cut along the black line and fold along blue lines (score lines)

Fold area is indicated by light pink areas - these are will covered once box is folded. Ensure no important visuals are placed here.
